CLEANEARS®

AUSTRALIA'S #1 EARWAX REMOVAL SPRAY*

*IQVIA NATIONAL PHARMACY SELL-OUT (SCAN) CHC VALUE SALES SEP 2024

Simple and effective earwax removal spray

Dual action formula:
1. Dissolves earwax
2. Irrigates the ear canal

Easy-to-use – no need to tilt the head or lie down for application

Suitable for children and babies over 2 months

Contains natural ingredients and no preservatives

Suitable for people with removable hearing aids

HERE'S HOW YOU CAN USE CLEANEARS IN YOUR CLINIC:

PRE-APPOINTMENT

To soften occluded wax or remove wax entirely.

Request client use CleanEars Earwax Removal Spray (following pack directions) for 3 days prior to their appointment to soften occluded wax, ready for removal in clinic or it may even remove wax entirely.

IN-APPOINTMENT

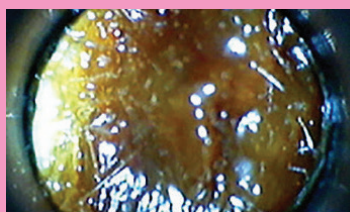

To soften wax prior to cerumen removal.

Simply apply 1-2 sprays per ear at the beginning of the appointment and allow to sit for 5-10mins. CleanEars helps to soften the wax without turning it to "sludge, making microsuction quicker, easier and cleaner.

POST-APPOINTMENT

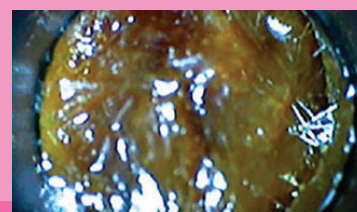

Ongoing earwax maintenance.

CleanEars can be used once a week as maintenance to help keep ears clean. Particularly useful for people with removeable hearing aids and clients who suffer wax blockages regularly.

Before CleanEars

CleanEars administered as per directions – 3 x 2 sprays per day for the duration of the trial.

End of day one

No discomfort reported. Patient quite happy to have the spray administered 3 times a day.

End of day two

Wax starting to visibly break up. No discomfort reported.

End of day three

Earwax has dissolved leaving the ear canal clear after just 3.5 days of CleanEars.

Always read the label and follow the directions for use.
