

Auracast Community Blueprint

Your installation guide for a more connected community.

01 Get to Know the Auri System

Build confidence through firsthand experience. Use a transmitter and receiver to learn, listen, and demonstrate.

02 Identify Community Venues

Start where people gather to listen, learn, and connect.

Libraries

Community centers

Houses of worship

03 Connect with Venue Key Contacts

Find the people who guide programming, accessibility, and audio systems.

04

Demonstrate Auracast Technology

Let decision makers experience the difference firsthand.

05

Coordinate Installation

Partner with AV or IT staff to plan connections, placement, and coverage.

You bring the hearing expertise.
Your technical partner handles the setup.

06

Promote Access and Your Practice

Help people discover, use, and share the new listening experience.

Signage

Community news

Patient outreach

**One venue can start
a community conversation.**
